

Guide for Survivors of State Executive Branch Employees

As an employee of the State, you are part of our family. So we want to be sure that your loved ones know what to do and who they should contact should something unfortunate happen to you. It would be helpful if your survivors obtain copies of the death certificate from the Department of Health, Vital Records Section, to show to the various agencies. This would make things easier and faster. Please take the time to review this information with your family and keep this information with all of your important family papers. Taking a few minutes now to discuss this information with your family will make an already difficult time less burdensome. We hope you find this Guide helpful. If you have further questions, contact your Departmental Human Resources Office.

* Please note that the information in this Guide is intended to address some of the more common concerns of State employees and their survivor(s) and does not constitute a legal document or contract. It lists only some of the benefits that may be available. State benefits vary by type of employment appointment and collective bargaining agreement, and are subject to change. For further information, contact your Departmental Human Resources Office, or refer to the applicable rules, laws, collective bargaining agreements, executive orders, or benefit plan documents.

In the event of your death, your family member should immediately notify the Departmental Human Resources Office (DHRO) for the Department of _____.
(Write name of your employing department)

MAJOR BENEFITS		
	<i>Benefits That May Be Available To Your Survivors</i>	<i>Contact/Website Information</i>
