

**SUPPLEMENT TO THE
ANNUAL REPORT TO THE 2004 LEGISLATURE
ON POSITIONS EXEMPTED FROM THE CIVIL SERVICE
AS REQUIRED BY ACT 253, SESSION LAWS OF HAWAII 2000**

Prepared by the Department of Human Resources Development
May 4, 2004

BRIEF HISTORY AND SUMMARY OF REPORT

On January 20, 2004, the Department of Human Resources Development (DHRD) submitted its Annual Report to the 2004 Legislature, on Positions Exempted from the Civil Service, as required by Act 253, Session Laws of Hawaii 2000.

In the January 20, 2004 Report, DHRD reviewed the 2,174 positions exempted from the civil service under Subsection 76-16(b)(17), Hawaii Revised Statutes. Based on the review, DHRD recommended that 1,371 exempt positions remain exempt from civil service, that 250 exempt positions be abolished and replaced with civil service positions, and that the remaining 553 positions still required further review.

This Supplemental Report addresses those remaining 553 exempt positions. Moreover, as a Supplemental Report, it needs to be read in conjunction with DHRD's initial Report of January 20, 2004.

In addition, since January 20, 2004, there have been a few changes to the initial Report. Most significantly, 4 more criteria have been added. The total number of proposed criteria is now 28. Attachment 4 – Proposed Criteria.

In a few instances, some departments provided us with erroneous information when we were preparing the initial Report and they have asked us to make the correction in this Supplemental Report. A few departments have also asked us to reconsider our recommendation as stated in the initial Report and have provided us with further information to justify the change. As a result, the final position count for exempt positions that should remain exempt (Exhibit 1) and the final position count for exempt positions that should be abolished and replaced with civil service positions (Exhibit 2), have changed. The specific changes are listed, by department, in Attachment 6 – Details of Changes.

The prior listing of Other Statutes Exempting Positions, has been updated. This Attachment lists all of the other statutes that provide for civil service exemption and also indicates whether the exemption is mandatory or discretionary.
Attachment 3 – Other Statutes Exempting Positions.

The statistical Summary of Recommendations, has also been updated. This Attachment reflects the final position count of all positions in each department.
Attachment 5 – Summary of Recommendations.

CONCLUSION

This Supplemental Report completes DHRD's review of the 2,150 positions exempted from civil service under Subsection 76-16(b)(17), Hawaii Revised Statutes. Of the 2,150 exempt positions reviewed, DHRD is recommending that **1,895** remain exempt and that **255** positions be abolished and replaced with civil service positions. These actions are based on the recommended criteria contained in Attachment 4.

Finally, DHRD will continue to review the positions exempted from civil service under the other statutory subsections and report its findings and recommendations to the Legislature as required by law. To comply with this, DHRD has begun its review of the positions exempted from civil service under Subsection 76-16(b)(12) and will have its recommendations on these exempt positions in its next Annual Report, which will be to the 2005 Legislature.

DATED: Honolulu, Hawaii, May 4, 2004.

Respectfully submitted,

Kathleen N.A. Watanabe

Kathleen N.A. Watanabe

**Proposed Criteria
for the Exemption of Positions from Civil Service
In the State Executive Branch**

1. **Other Personnel System.** Positions, covered by another, formal, personnel system (i.e., qualifications, compensation, other terms and conditions of employment, etc., are legally set by others). As such, civil service recruitment, compensation, terms and conditions of employment cannot be applied. For example:
 - a. National Guard [§76-16(b)(1)]
 - b. BOR Systems (covering UH Faculty, APT, etc.) [§76-16(b)(11)]
 - c. BOE Systems (covering Teachers, Educational Officers, etc.) [§76-16(b)(11)]
2. **Elected Officials.** Positions which are filled by the Electorate which is empowered to select the individual who will serve. Compensation is determined by the legislature. For example, positions established for members of the Board of Education. [§76-16(b)(6)]
 - a. Governor
 - b. Lieutenant Governor
 - c. Board of Education [§76-16(b)(6) and §76-16(b)(24)]
3. **Governor's and Lt. Governor's Staff.** Positions filled by the Governor and Lt. Governor to staff their Offices. Selection is done by the elected official, in conformance with their needs and because personal loyalty is paramount. The appointment should be "at will" because tenure is inappropriate. [§76-16(b)(5) and (17)]
 - a. Governor's Staff
 - b. Lt. Governor's Staff
4. **Personal Services.** Positions that provide direct personal services to elected or appointed officials during that officials' off duty hours in their residence, such as staff within the household of the Governor or President of the University of Hawaii. Selection is done by the elected or appointed officials because their comfort and the personal loyalty of the staff are paramount. The appointment should be "at will" because tenure is inappropriate. [§76-16(b)(5) and (19)]
5. **Gubernatorial Appointees.** Positions filled by the Governor with the advice and consent of the Senate (i.e., a separate branch of government). Frequently, such positions head an agency or attached agency and their responsibilities include policy setting which should reflect the policies of the current administration. Additionally, such individuals are high profile individuals, whose conduct and decisions will be scrutinized by the media. As such, the appointment should be "at will," except as otherwise provided by statute (e.g., removal of the Attorney General must be with the advice and consent of the Senate), to assure compliance with

gubernatorial priorities and policies and the public image inherent in such a role. For example:

- a. Department Heads, [§76-16(b)(7)]
- b. Members of Board and Commissions, [§76-16(b)(7) and (17)]
- c. Executive Directors of Agencies that are administratively attached to a department [§76-16(b)(17)]

6. Assistant to a member of the Governor’s Cabinet, the Superintendent of Education or the State Librarian. Persons who are employed to provide assistance to a cabinet member, the Superintendent of Education and the State Librarian, where the need is established by the individual official and his/her management style and/or personal preferences rather than the functions of the office. As such, Civil Service recruitment is impracticable and an alternative or special selection process is appropriate. Duties and qualification requirements cannot be set on an ongoing basis, open competitive recruitment and tenure is inappropriate, and “at will” employment is inherent. For example:

- a. Deputy Directors of Departments;
- b. Special Assistants to Department Heads;
- c. Private Secretaries to Directors, Deputy Directors;
- d. Private Secretaries for Special Assistants to Department Heads;
- e. Private Secretaries for Agency Heads appointed by the Governor; and
- f. Comparable positions at the UH and DOE.

[§76-16(b)(9), (16) and new]

7. Administrative or Managerial Positions Reporting Directly to a Board or Commission. Boards and commissions need to have the top-level position within the program filled by an exempt “at will” employee who is loyal and accountable to them to insure that their directions or instructions are effectuated. Such positions must utilize substantial discretion and authority and are normally excluded from collective bargaining. In addition, these types of positions require specialized qualifications that are possessed by few and possession of such qualifications should be required. An example would be the Employer-Union Trust Fund (EUTF) Administrator. “Assistant Administrators” qualify if they have substantially the same discretion and authority as the “Administrator.” Comparable positions, that are accountable for a major function or area of expertise and provide advice directly to the board or commission, also qualify if they reflect the same characteristics. [§76-16(b)(17) and (new)]

8. Subsidized employment/Societal purpose. Positions which exist primarily to provide subsidized employment to meet a social purpose rather than to perform work needed in the operation of government. The societal purpose must be paramount and the criteria for selection must limit the pool of persons eligible to the extent that open competitive recruitment is incompatible with the reasons for which funds were provided and/or the positions were established. For example:

- a. Inmates who are provided with training in job skills and the constructive use of time through “employment” in the correctional industry program. [§76-16(b)(13)]
 - b. Enhance job readiness of unemployed persons by subsidizing their temporary employment with various employers (Work Experience Workers). [§76-16(b)(13)]
 - c. Provide supplemental income to the elderly and assist the needy (Respite Companions). [§76-16(b)(18) and new]
 - d. Ameliorate social need by subsidizing independent living (e.g., severely handicapped persons). [§76-16(b)(23) and new]
 - e. Provide a sense of “ownership” and a supplemental source of income to low income tenant hires in housing projects. [§76-16(b)(21)]
 - f. Help troubled youth by providing constructive activities (e.g., DOD Youth Challenge Academy). [§76-16(b)(27)]
 - g. Students who are “employed” to provide them with a means to supplement the cost of their education and introduce them to government jobs to facilitate their subsequent recruitment. [§76-16(b)(13)]
- 9. Incidental Workers.** Persons employed by a program which requires services intermittently and irregularly where the limited amount of work required is such that it cannot serve as a primary employment for the individual and thus it is inappropriate to establish an ongoing employee-employer relationship with that individual or to include the position in the civil service. For example, event staff at the Stadium. [§76-16(b)(13), (17) and new]
- 10. Immediate Services Required to Avoid Court Ordered Penalties or Actions** (Positions in programs covered by Court Orders or Consent Decrees). Exemption is applicable only to those positions that must be filled without delay to comply with a court order or decree when normal civil service recruitment procedures would delay or prevent compliance. Circumstances must be reviewed periodically to assure that the factors, which would cause delay or non-compliance (e.g., extreme recruitment difficulty), continue. If the original factors continue to exist, the basis for exemption from civil service should continue. If not, and if the position is needed for an appreciable length of time, the position should be established on a civil service basis. Similarly, the exemption should terminate if the court order or consent decree is terminated. [§76-16(b)(3)]
- 11. Staff of Experimental Programs.** Positions in programs whose core mission is the antithesis of conventional government programs and operations when staffing flexibility is an integral part of that mission and the concept of tenured civil service employees (with recruitment based on set duties and requisite knowledge, skills and abilities) would conflict with the purposes for which the program was established. For example, Charter Schools which provide for external governance by the community. [new]
- 12. Workers Stationed Outside of Hawaii.** Employees in offices located outside the State of Hawaii (e.g., stationed in a foreign country). These positions require highly specialized expertise relative to the location and wages may need to be consistent with wage scales in that locale. [new]

- 13. Practicing Attorneys.** Positions established to provide legal services and advice and filled by qualified attorneys. The unique nature of their relationship with their clients (attorney-client privilege) and being subject to the canons of law and oversight by the Office of Disciplinary Counsel make it preferable that the incumbents of such positions be “at will” exempt employees rather than civil service employees who are subject to due process requirements. In addition, the incumbents of such positions provide services under unconventional governance (e.g., not limited to eight hours per day, forty hours per week, Monday through Friday workweek), and their work, work output and its timing are inherently and regularly dictated by external factors (e.g., an attorney must be prepared for a court or other hearing scheduled at the discretion of a judge or arbitrator, irrespective of how much time is available prior to the hearing). [§76-16(b)(10), (17) and new]
- 14. Temporary positions required for a special, demonstration or research projects.** Temporary positions needed for a pre-determined, specified, period of time to carry out the work of a project, approved by the Governor, that will be funded by a Federal grant or specific designated legislative appropriation, where normal civil service recruitment procedures would delay the start up of the project and thus preclude full use of the appropriated funds. [§76-16(b)(12)]
- 15. Temporary Positions.** Positions of a temporary nature needed in the public interest where the need for the position does not exceed one year, but before any person may be employed to render the temporary service, the director shall certify that the filling of the position through civil service recruitment procedures is not practicable; the establishment of a class is not practicable; or the establishment of a new class is pending. The director, for reasons given in writing by the department concerned, may extend the position for another year. However, the total duration of the position and appointment shall not exceed two years. Thereafter, there must be at least a six-month break in service before the incumbent can be appointed to another position exempted by this subsection. The central human resources agency shall develop policies and procedures covering the establishment, extension and filling of positions under this provision. [similar to §76-16(b)(3) abolished 6/30/02].
- 16. Positions assigned to inter-jurisdictional programs.** Positions assigned to an inter-jurisdictional program, administratively attached to a State department, that is directly involved in determining allocation of funds and/or choosing between proposals among the jurisdictions (e.g., State, City and County, Hawaii County, Maui County, Kauai County, etc.) involved. In such situations, there is a need for staff to be impartial, and to be perceived as impartial, in relation to the competing jurisdictions. There could be a perception of bias if the program is staffed solely by individuals who come from the civil service workforce of one of the jurisdictions (State). For example, staff of the Oahu Metropolitan Planning Organization (OMPO), which is administratively attached to the Department of Transportation, but funded by the federal, city and state governments. This exemption criteria does not cover positions exercising inter-jurisdictional regulatory functions or making the above-mentioned types of determinations between State programs and/or private entities which may involve other jurisdictions. [§76-16(b)(17) and new]

- 17. Positions for which the amount of compensation is specifically set by statute.** One key component of the civil service system is the establishment of job-related pay relationships. If compensation for a position is set by the legislature, the position should not be covered by the civil service because civil service compensation practices would not be applicable. [§76-16(b)(17) and new]
- 18. Staff of programs temporarily attached to government when the intention is to sever that relationship.** Occasionally, functions and programs may be assumed by the government as a start-up or interim measure, although the intent is not to establish a permanent governmental program. Coverage by the civil service, including tenure and other employment rights and benefits, are unwarranted inasmuch as alternative staffing may be appropriate upon severance from the government. This criteria is applicable only in those cases when the decision to separate the program from government is specified in an authoritative source (e.g., legislative action, contract, other binding agreement, etc.) as opposed to speculative. [new]
- 19. Individuals who are compensated on a fee for service or piecework basis or who are hired as independent contractors.** These temporary and/or intermittent services by individuals would usually be provided through the filling of positions. However, there are certain circumstances when services are provided through an agreement or contract between a State agency and an individual or a firm. The contractor's relationship with the State must be that of an independent contractor--not an employee. The contractor must perform duties concurrently with their private business and deliver the completed work/product by or during a specified time. Therefore, individuals providing intermittent services for a fee, on a piecework basis or as an independent contractor, should not be covered by the civil service. [§76-16(b)(2) and (15)]
- 20. Law Clerks.** Law Clerk positions are filled, on a short-term basis, by law school graduates who have not yet passed the bar. The positions provide the individual an opportunity to gain valuable experience and exposure to government prior to sitting for the bar. Individuals have already met the appropriate qualifications for the position by receiving a law degree. Consequently, the concept of long-term employment is inconsistent with their credentials, interim status and the type of position. Consequently, civil service coverage is not appropriate. In many instances, individuals hired as law clerks are converted to or appointed to attorney positions. [new]
- 21. Positions which serve as full-time Board or Commission Chairs and Members.** Such positions serve on, or head, a board or commission with a significant workload and substantial impact on the public. Their responsibilities include policy setting which should reflect the policies of the current administration. Additionally, such individuals are high profile individuals, whose conduct and decisions will be scrutinized by the media. As such, the appointment should be "at will" to assure compliance with gubernatorial priorities and policies and the public image inherent in such a role. [§76-16(b)(5) and new]
- 22. Positions in an Office that is administratively attached to a department, if the position is exempt from 26-35(4) and the person's salary is, by law, set by the**

Board. One key component of the civil service system is the establishment of job-related pay relationships. If there is a compelling reason to provide the Board with the authority to set the compensation for a position, the position should not be covered by the civil service because civil service compensation practices would not be applicable. [new]

- 23. Psychiatrists.** Prevailing wages for psychiatrists are higher than can be accommodated through the use of civil service salary ranges, and the State has experienced ongoing recruitment difficulties in filling many civil service psychiatrist positions. This difficulty is also sometimes exacerbated by the physical locations and clientele that apply to specific positions. This exemption allows departments to offer community or market salaries to qualified psychiatrists. [§76-16(b)(17) and new]
- 24. Executive Protection.** The Governor and Lt. Governor are provided with personal protection during their extended working hours and in their private lives. As such, Executive Protection personnel are privy to many confidential governmental matters and also to personal matters. The individuals providing this service must be skilled but must also be persons with whom the Executive is comfortable and in whom he/she has confidence. Such appointments must inherently be “at will” since the confidence and comfort of the Executive served is paramount. [new]
- 25. Staff to a board or commission.** Boards and commissions need to have certain staff positions within the program filled by an exempt “at will” employee who is loyal and accountable to them to insure that their direction or instructions are effectuated. Such positions must utilize substantial discretion and authority or provide services under unconventional employment governance, e.g., working out of class, hours of work not limited to conventional 8hour/40hour Monday-Friday work week, or work output is driven by external factors. In addition, these types of positions require specialized qualifications that are possessed by few and the appointee is subject to an employment contract with provisions that do not mirror or provide civil service tenure and benefits. [new]
- 26. Appointments that coincide with the term of appointment of the Administrator.** Appointees are selected by the Administrator based on: specific or specialized qualifications; compatibility with the Administrator and the organization; or appointees are subject to employment contract provisions that do not mirror or provide civil service tenure and benefits. [new]
- 27. Positions not appropriate for inclusion in the civil service as determined by the Director of Human Resources Development.** Positions needed in the public interest for which tenure and/or other terms and conditions of civil service employment are inappropriate; provided that the employing department shall provide for a full and adequate explanation of the aspects of the position preclude inclusion in the civil service, and the director shall certify that inclusion within the civil service is inappropriate. Any such exemption shall be granted for a duration determined by the director. [new]
- 28. Positions funded by sale of non-governmental services or products.** Authorized positions that are totally funded through the sale of non-governmental products or services, such as are found in the Correctional Industries program. Appointments to such positions are dependent upon the amount of sales and

revenue generated from the sales, thus necessitating flexibility not afforded by the civil service system. [new]

DETAILS OF CHANGES

Changes to Position Counts

- Twelve positions in the Department of the Attorney General have been corrected from exemption under §76-16(b)(17), HRS, to exemption under §76-16(b)(10), HRS, and thus are no longer covered by this report.
- Eight positions within the Department of Accounting and General Services have been abolished and are deleted from the final report.
- One position within the Department of Land and Natural Resources has been abolished and has been deleted from the final report.
- One vacant position within the Department of Land and Natural Resources was replaced by a civil service position and has been deleted from the final report.
- There were two duplicate positions reported for the Department of Taxation. The duplications have been deleted from the final report.

Changes to Recommendations

- One position within the Department of the Attorney General was erroneously recommended for replacement with a civil service position.
- On the basis of further information from the Department of Health, three positions previously recommended for replacement with civil service positions are now recommended to remain exempt from civil service.

Position	Job Title	Legal Authority	Establish	Division	R/T	Name	FTE	Purpose	Criteria
00103084	Health Management Associate	141-2.5(B), HRS	9/3/93	AquaDevPrgrm	T	Montgomery-Brock,Diana R	1	Broaden the base of ADP capability to respond rapidly with helpful answers and practical solutions to the unique disease and production problems faced by the aquaculture community in Hawaii.	26
