Q3. *"Do you need materials in advance of the meeting?"*

A3. **No, however, please bring 12 printed copies to the meeting.**

Q4. *"Can you confirm that all of the Deferred Compensation Plan participants are eligible for Social Security (some public plan participants are not)?"*

A4. **Yes, all Plan participants are eligible for Social Security.**

Q5. *“Can you provide some additional context in the discussion points around the periods of positive and negative performance and performance in down markets. For instance over how long of a period for positive and negative performance? Monthly, annual time periods? Or when broad equity market is up or down what do TRFs do? So what defines the ups and down markets?”*

A5. **For discussion, it will be sufficient to focus on demonstrated risk mitigation over a period of at least five years. Generally, rolling twelve-month periods for funds representative of accumulation, transition, and distribution periods will be sufficient. It is most important that candidates present specific risk mitigation strategy and results.**
