

State Executive Branch Employees- **GUIDE for Survivors of State Executive Branch Employees**

This GUIDE is intended as a checklist of offices your loved ones need to contact and some important forms they may need to file in the event of your death. It would be helpful if your survivors obtain multiple copies of the death certificate from the Department of Health, Vital Records Section, to provide to the various agencies. Take the time to review this information with your family and keep this information with your important family papers. This GUIDE does not constitute a binding legal document or contract. It lists only some of the benefits that may be available. State benefits vary by type of employment appointment and collective bargaining agreement and are subject to change. It does not supersede laws, rules, collective bargaining agreements, executive orders, policies and procedures, or benefit plan documents pertaining to the benefits covered, and is subject to change. For more information, contact your departmental Human Resources Office (HRO) designee or refer to the applicable rules, laws, collective bargaining agreements, executive orders, or benefit plan documents.
